

## CM-3 Dual Microphone Kit

**Two High Quality Conference Microphones  
Connects to Computer Microphone Input  
Cables for placing on tables up to 15' long  
Covers Medium and Large Conference Tables  
Omnidirectional Pickup Pattern**

### **Microphones for Recording Meetings**

The CM-3 Dual Microphone Kit consists of two professional quality conference microphones that connect to the computer through the standard microphone input.

Omnidirectional pickup is ideal for recording in a boardroom or a conference room where participants sit around a long conference table.

**Product Part Number: CM3D**

### **Microphone Placement**

The two microphones are placed at either end of the conference table to provide coverage for all participants. Included cables connect the microphones to the computer.
