

SONICLEAR[®] Gov Recorder 7

Digital
Recording
Software for
21st Century
Government

Record meetings for archive and review. Share with staff, elected officials and the public.

Save Time Every Day

Now it is easy and affordable to create digital meeting archives, with Gov Recorder 7.

- ▶ Easy to use, just like a traditional tape recorder
- ▶ Hear even the softest voice with clear, digital audio
- ▶ Fast note taking to highlight important meeting events
- ▶ Pre-load agenda and common phrases
- ▶ Point and click to share meetings on internal network
- ▶ Save time using CDs for storage and duplication
- ▶ Save time creating meeting minutes
- ▶ No more juggling cassette tapes

Digital Audio Recording

Gov Recorder 7 digitally records meetings on laptop and desktop computers (Windows XP and Vista). Notes can be entered easily during and after the meeting to create an outline of agenda items, discussion points, action items, motions, and votes. Gov Recorder 7 makes it easier to produce meeting minutes with features like foot pedal support, slow playback and VoiceBoost audio enhancement for maximum clarity and intelligibility.

Create Archives for Easy Access

Meeting recordings are stored in digital files for duplication on CD, or for retrieval from a network server, or a web server. The archived recording saves time by reducing the need for detailed meeting minutes. Just point and click for immediate access to any detail covered in a meeting.

Gov Recorder 7 uses industry-standard digital audio files for reliable, permanent storage. No need for complex streaming software or expensive hosting services.

Gov Recorder 7

Easy, affordable digital recording software that helps government be more efficient and responsive.

Digitally record, manage, archive and webcast important meetings:

- Board Meetings
- Sub Committee Meetings
- Planning Meetings
- Administrative Hearings
- Workgroups and Seminars
